

Yukon Mineral Exploration and Mining Essentials

*An engaging and informative overview of the mining industry from prospecting to mine closure
– Customized for the Yukon –
November 17-18, 2022 – In Person at the Gold Rush Inn
Registration: [Yukon Mining Essentials](#)*

Overview

Mineral Exploration and Mining Essentials provides a comprehensive overview of the mineral exploration and mining industry for those involved or interested in the mining sector. It is suitable for government and business professionals, members of local and Indigenous communities, the service and supply sector and the general public. Mineral Exploration and Mining Essentials is effective at tying together and explaining the relevance and importance of the various parts of the industry. The course is customized for the Yukon and includes examples from the Yukon, BC and around the world. The course has been developed and refined over more than 15 years and is widely recognized in North America as an engaging and highly informative course on the mining industry.

The course includes:

- Industry Overview
- Geology and Mineral Deposits
- Mineral Exploration
- Resource and Reserves and Feasibility Studies
- Mining and Mineral Processing
- Social and Environmental Considerations

Format and Course Schedule:

Yukon Mineral Exploration and Mining Essentials will be presented in an engaging format developed specifically for the Yukon.

- Thursday and Friday November 17-18, 2022
- 8:30 to 4:30 each day with morning and afternoon breaks and lunch from noon to 1:00

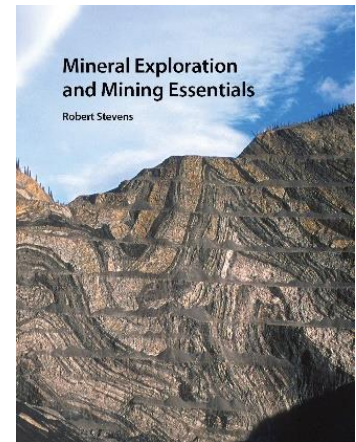

Testimonials

Rob is an outstanding instructor! The approach he uses is extremely effective. He left no stone unturned, and I felt more knowledgeable after every class – Spring 2021

I can't tell you how much I loved this course! Great instructor, great content, and good visual materials to help one understand the entire lifecycle of the mining sector from exploration to reclamation – Yukon Mining Essentials Fall 2020

Mineral Exploration and Mining Essentials

Each participant in the course will receive a copy of Mineral Exploration and Mining Essentials. This best-selling book with over 7000 copies in circulation, is an indispensable primer for anyone interested in the mineral exploration and mining industry.
